

Mohammed Saket

mohammedsaket1@gmail.com | +91 9784282637 | [Portfolio](#) | [LinkedIn](#)

Senior Frontend Engineer with **6+ years** of experience **building and scaling SaaS and enterprise products** using React, Next.js, and TypeScript. Strong ownership mindset across product ideation, UX execution, frontend architecture, and feature delivery. Experienced in **leading application revamps, designing scalable UI systems, collaborating with product and design stakeholders, and shipping AI-powered workflows** used in production environments. Proven ability to bridge engineering and product decisions to improve user experience, accelerate delivery, and support business growth.

SKILLS & COMPETENCIES

- **Frontend Development:** React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, SASS, LESS, Tailwind CSS, Webpack, Babel, Responsive Design, Cross-Browser Compatibility, Accessibility (WCAG), Performance Optimization, Core Web Vitals, Lighthouse Audits, Bundle Optimization, Lazy Loading, Code Splitting
- **Backend & APIs:** Python, Flask, RESTful APIs, Node.js (basic), JWT, OAuth 2.0, SAML, SSO Integration, API Authentication, Data Handling
- **Dev Tools & Practices:** Git, GitHub, CI/CD (Jenkins, GitHub Actions), Storybook, ESLint, Jest, React Testing Library, Agile & Scrum, Code Review, Version Control, Unit Testing, Webpack, Babel
- **Architecture & System Design:** Scalable Frontend Architecture, Modular UI Components, Micro-Frontends, Secure Web Applications, State Management, Design Patterns
- **Project Management:** Team Leadership, Technical Mentorship, Cross-Functional Collaboration, Agile Project Management, Client Communication, Requirement Analysis

EXPERIENCE

Scry AI Apr 2025 - Present
Senior Frontend Engineer | Pune, IN

- Led the **end-to-end frontend revamp** of the core platform, redesigning the user experience and modernizing the application architecture to support improved usability, onboarding, and customer adoption.
- Worked closely with product and design stakeholders from the ideation phase, contributing to **workflow design, feature planning, UX improvements**, and implementation strategy using Figma and collaborative design reviews.
- Delivered scalable frontend systems using React, Next.js, TypeScript, and modular component architecture, **improving maintainability and accelerating feature delivery** across teams.
- Owned critical UI modules and **cross-functional frontend initiatives, ensuring delivery quality, accessibility compliance, responsive behavior, and performance optimization** across production environments.
- Implemented secure authentication workflows including **SSO, OAuth 2.0, SAML, and JWT-based session handling** to support enterprise customer requirements.
- Mentored engineers, reviewed frontend architecture decisions, and contributed to engineering standards focused on scalability, consistency, and long-term product maintainability.

Presto Labs Oct 2024 - Apr 2025
Principal Full-Stack Engineer | Remote

- Led frontend architecture and **product execution for an AI-powered productivity** and knowledge management platform, owning the user experience from **ideation to production rollout**.
- Collaborated closely with founders, product stakeholders, and design teams to define workflows, improve usability, and shape platform capabilities based on customer usage patterns and operational requirements.
- Designed scalable frontend systems using **React, Next.js, TypeScript, and Storybook, enabling consistent UI delivery** across rapidly evolving product modules.

- **Built AI-assisted workflows and contextual interfaces** that streamlined task management, document interaction, and team collaboration experiences.
- Developed rich-text editing, hierarchical workspace management, permissions, and productivity features focused on improving user engagement and operational efficiency.
- Introduced **reusable component standards, frontend architecture guidelines, and delivery processes** that improved development velocity and reduced UI inconsistencies across teams.

TATA CONSULTANCY SERVICES

July 2020 - Oct 2024

Technical Project Lead at Apple (Contract - Onsite) | London, UK

- **Led three concurrent dashboard projects**, managing a cross-functional team of 10 developers and implementing a centralized insights module that **reduced development time by 70%** and **integration time by 90%**.
- Defined **frontend architecture standards**, enforced **code quality best practices** with **ESLint, CI/CD pipelines, and automated testing**, and mentored junior developers to ensure consistent delivery of enterprise-grade UIs.
- Delivered client-facing projects on-site, achieving **70% cost reduction** through innovative architectural solutions and ensuring timely delivery using Agile methodologies.

Lead Software Developer at Apple(Contract) | Noida, IN

- Developed and deployed customer-facing web applications, including sales analytics dashboards, AI-powered chatbot interfaces, and insights modules using **React.js, D3.js, HighCharts, and the MERN stack**, boosting **customer engagement by 20%**.
- Built reusable component libraries, implemented responsive layouts, ensured cross-browser compatibility, and created POC applications to streamline development and enhance user experience.
- Provided post-launch production support, resolving over **1,000 bugs and issues** while leveraging modern technologies such as **TypeScript, CSS3, and Webpack** to deliver scalable, high-performance solutions.

EVENTOS HUB

Jan 2020 - June 2020

Software Developer | Jaipur, IN

- Collaborated with the Backend team using **Python** to develop **RESTful Web APIs** for user authentication and data management.
- Engineered an Asynchronous RESTful Web API with 10+ image filters, **RabbitMQ** integration, image/video compression, and storage functionalities.
- Contributed to the Front-end team and utilized **React Native** to conceptualize, design, and build Android and iOS mobile applications for client projects.

EDUCATION

JECRC UNIVERSITY, Jaipur

B.Tech in Computer Science | Cum. GPA: 9.14 / 10.00

Jaipur, India

July 2016 - July 2020

CERTIFICATES

- “The Complete Prompt Engineering for AI Bootcamp” by Udemy
- “Project Management Foundations: Schedules” by PMI on LinkedIn Learning
- “Become a React Developer - Path” (5 Courses) by LinkedIn Learning.
- “Applied Data Science with Python Specialization” (5 Courses) by University of Michigan on Coursera.
- “Machine Learning” by Stanford University on Coursera
- “SQL for Data Science” By University of California on Coursera
- “Databases and SQL for Data Science” by IBM on Coursera.
